Anonymous Call Rejection: Reject incoming calls that have blocked their directory or identification information. Anonymous callers will hear an intercept message when they call.

Call Forwarding: Forward incoming calls to another number when your line is busy, or you don't answer. Enter the 10-digit phone number for the call forwarding destination and press #. Listen for the confirmation message.

Call Return: Quickly dial the number of the last incoming call.

Call Waiting: Switch to new incoming calls while already on another call.

Caller ID: Identify callers before answering the call. Block Caller ID information from being delivered with Outbound Caller ID Block.

Clear Voice Message Indicator: Clear the indicator on your phone that shows voice messages.

Do Not Disturb: Halt calls, pages or intercom messages. Callers will receive a busy message and be sent to voicemail or receive a busy signal.

Flash Call Hold: Place a call on hold.

Last Number Redial: Quickly dial the number of the last outgoing call.

Speed Dial: Add frequently dialed numbers for quick and simple access.

Three-Way Calling: Create a call that includes three parties with each on a separate device.

Voicemail: Send calls to a personal Voicemail while on another call, not at the office or just too busy. Messages can be conveniently retrieved by phone, online account or email.

Main Voicemail Menu Options: First Time Setup or Reset Voicemail Passcode.
